21) This question assesses two things:

- 1) What you would expect if you were under the influence of alcohol
- 2) Whether you think the effect is good or bad

Choose from "disagree" to "agree" depending on whether you expect the effect to happen to you if you were under the influence of alcohol. These effects will vary, depending on the amount of alcohol you typically consume. Please mark one answer after each statement.

Choose from "good" to "bad" depending on whether you think the particular effect is bad, neutral or good. We want to know if you think a particular effect is bad or good, regardless of whether or not you expect it to happen to you. Please mark one answer after each statement.
